The requirements of all applicable parts are considered in determining if a permit can be issued. When a permit application is received requesting authorization to work in or over the inland waters of the State of Michigan, pursuant to Part 301, Part 303, of the NREPA, the NREPA provides that the DEQ submit copies for review to the department of public health; the city, village, or township and county where the project is to be located; the local soil conservation district; and any local watershed council organized under Part 311, Local River Management, of the NREPA. Additional notification is provided to certain persons as required by statute or determined by the DEQ.

Unless a written request is filed with the DEQ within the 20-day public comment period, the DEQ may make a decision on the application without a public hearing.
